

# Council of the Institute Sister Disciples of the Divine Master

ANTIPOLO 20 JANUARY-10 FEBRUARY 2026

N.4

## Drawing New Maps of Hope

The global vision of the Congregation and the challenges of the mission have involved us in a process of discernment on the redesign of our presences. Through listening and dialogue, we shared concrete suggestions for reconfiguration. This redesign begins with the conversion of the heart, calls us to value our real resources, and commits us to growing as one single family.

## With the Compass in Hand

With a grateful gaze upon the journey made over the past three years, we have set our horizon looking forward. In this spirit, we shared insights and gathered suggestions that may be helpful to the General Government in identifying the theme of the 11th General Chapter.

## With a Luminous Gaze

During the Prayer Vigil, lived together with the local community on February 7, we contemplated the beauty of Abraham's vocation, which invites us to lift up our eyes and glimpse the greatness of God's promise. Then, by lighting candles as lights of hope and placing them on the world map, we visualized our desire: that the light of Christ the Master may spread everywhere, across the five continents!

On February 10, the 102nd anniversary of the foundation of the Pie Discepolo, we joyfully concluded the Institute Council. We are deeply grateful to the sisters of the Philippines/Taiwan/Hong Kong Province for their warm welcome and their thoughtful and attentive hospitality.

And thank you to everyone—Sisters and Friends—for your prayers and closeness!

*Look toward heaven and count the stars..." (Gen 15:5)  
Transforming fragility into a generative journey.*
